I am writing to apply for the Trainee (m/w/d) Consulting position at Kˆ¶lner Wirtschaftsberatung. Your four-month program offers exactly the kind of structured introduction to financial and business consulting that I am looking for at this stage of my career. The opportunity to work with private and corporate clients in wealth management, investment, real estate financing, and retirement planning while building both technical and client-facing skills is very appealing.

What stands out to me about this role is the emphasis on entrepreneurial thinking and taking ownership of projects from day one. In my previous work as a Web Developer, I regularly took initiative on feature development, communicated directly with stakeholders, and managed project timelines independently. These experiences have taught me to think beyond assigned tasks and consider the broader business impact of my work.

I am currently completing my Bachelor’s degree in Software Engineering at Voronezh State University of Forestry and Technology in Russia. My academic background has trained me to approach problems systematically, learn new domains quickly, and communicate complex ideas clearly. I am confident that these skills will transfer well into the consulting environment, where understanding client needs and translating them into actionable solutions is essential.

In addition to my technical and academic experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments. I am eager to bring this adaptability and my strong work ethic to your team in Cologne.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to Kˆ¶lner Wirtschaftsberatung during the trainee program and beyond. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
