I am writing to apply for the Teamleiter (m/w/d) Outbound Sales position at Avedo in Augsburg. Your focus on team development, performance management, and process optimization in a dynamic call center environment aligns with my background in structured, results-oriented work.

Although my professional experience is rooted in software engineering, I have consistently worked in roles that require clear communication, data-driven decision-making, and process improvement. I am comfortable analyzing metrics, tracking performance, and reporting to management, skills that are directly relevant to managing KPIs, productivity, and quality targets in an outbound sales team.

One area that particularly interests me is the opportunity to support and develop team members through coaching and structured feedback. In my previous work, I have collaborated closely with colleagues to improve workflows, resolve issues, and maintain high standards of output. I am confident in my ability to lead performance conversations and contribute to a positive, productive team culture.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills and approach can contribute to your team at Avedo.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
