I am writing to apply for the Mitarbeiter (m/w/d) Qualitˆtsmanagement Obst & Gemˆ…se position at Landgard Service GmbH. While my professional background is in software engineering, I bring strong analytical capabilities, a structured approach to documentation and data management, and the ability to quickly learn and adapt to new domains.

In my previous work as a Web Developer, I was responsible for managing data flows, ensuring accuracy in documentation, and coordinating with multiple stakeholders to meet quality standards. These responsibilities required careful attention to detail, systematic tracking of information, and clear communication across teams.

One area that particularly interests me is the opportunity to work with international producers and suppliers. I am fluent in English and Bengali, have working knowledge of Russian and Hindi, and am comfortable communicating across cultural boundaries. I am confident I can quickly learn the specific quality standards, certifications, and documentation processes relevant to the fruit and vegetable import sector.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills and work ethic can contribute to your quality management team in Munich.

Sincerely,

Md Shahanur Islam Shagor
