I am writing to apply for the Chief of Staff Operating Partner CEO Office position at Stableton. Your firm's position as a tech- and data-driven institutional investor in private blue-chip companies is compelling, and the opportunity to work directly with the CEO on strategic initiatives aligns with my career goals.

My background as a Full-Stack & AI Engineer has equipped me with strong analytical and problem-solving skills. I have experience building scalable web applications, integrating complex systems, and optimizing processes for performance. This technical foundation allows me to quickly understand new domains, identify operational bottlenecks, and drive initiatives forward with clarity.

In my professional experience, I have taken ownership of multiple high-stakes projects from conception to deployment. I have designed and developed full-stack applications using Laravel, Next.js, and Node.js, implemented secure authentication and payment gateways, and deployed systems on cloud infrastructure. I am comfortable working across teams, translating business requirements into technical solutions, and ensuring alignment between stakeholders.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my ability to synthesize complex information, drive execution, and adapt quickly would make me a valuable addition to your team. I have attached my CV for your review and look forward to the possibility of contributing to Stableton's continued growth.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
