I am writing to apply for the Operations Executive position at EFICYENT. Your focus on transaction monitoring, client query handling, and cross-team coordination aligns with my background in managing complex workflows and maintaining operational accuracy.

Through my professional experience as a Web Developer, I have developed strong attention to detail and systematic problem-solving skills. I regularly coordinated with internal teams and external partners to resolve issues, track progress, and ensure timely delivery. Maintaining accurate records and documentation was a core part of my daily work, which directly relates to the tracking and resolution responsibilities in this role.

One area that particularly interests me is the emphasis on client communication and follow-up. I have experience responding to client queries professionally, sending status updates, and ensuring that all issues are documented and resolved. My ability to manage multiple tasks while maintaining accuracy and confidentiality has been consistently demonstrated in my previous roles.

In addition to my operational experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and welcome the opportunity to discuss how my skills can contribute to EFICYENT’s operations team.

Sincerely,

Md Shahanur Islam Shagor
