I am writing to apply for the Sales Manager position at LohnDialog Abrechnungsgesellschaft mbH. Your company's long-standing expertise in payroll and software solutions, combined with a collaborative and supportive work culture, makes this an appealing opportunity.

Although my professional background is in software engineering, I have developed strong communication and client-facing skills through years of direct collaboration with stakeholders. I am comfortable presenting technical solutions, conducting consultations, and guiding clients through decision-making processes. These experiences have prepared me well for a sales role that requires clear communication and relationship building.

In my previous work as a Web Developer, I was responsible for understanding client requirements, presenting project proposals, and managing expectations throughout the delivery cycle. I learned to translate complex technical details into clear, accessible language for non-technical audiences. This ability to communicate effectively and build trust with clients is directly relevant to the sales process described in your job posting.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can contribute to your sales team. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
