I am writing to apply for the Projektmanager / Projektleiter position for Fertigungsplanung / Arbeitsvorbereitung at AS-Talentbridge. Your focus on connecting talent with opportunities in the DACH region and your commitment to innovation align with my approach to structured project delivery and cross-team coordination.

Through my professional experience in software development, I have developed strong organizational skills and a practical approach to planning and resource management. I have worked closely with production, logistics, and client-facing teams to coordinate task assignments, manage documentation, and ensure that all operational resources are aligned for smooth project execution. This has given me hands-on experience in optimizing workflows and maintaining clear communication across departments.

One area that particularly interests me is the implementation of efficient Arbeitsvorbereitungsprozesse. In previous work, I have been responsible for creating and updating technical documentation, testing process changes, and acting as a reliable point of contact for both team members and external stakeholders. I am comfortable supporting specialized departments and ensuring that custom requirements are properly implemented and tracked.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I would welcome the opportunity to bring my coordination skills and technical understanding to AS-Talentbridge. My CV is attached for your review.

Sincerely,

Md Shahanur Islam Shagor
