I am writing to apply for the Finance Manager- Part Time (20 hours/wk) position at Made of Air GmbH. Your work in reversing climate change through deep-tech materials is meaningful, and I appreciate the opportunity to support the financial backbone of a mission-driven startup.

While my professional background is in software engineering, I have developed strong analytical, organizational, and problem-solving skills through building and managing complex full-stack systems. I am accustomed to working directly with stakeholders, managing multiple priorities, and ensuring accuracy in every detail. These skills transfer directly to owning day-to-day financial operations in a small, fast-moving team.

I am fluent in English and have working-level German. I am comfortable coordinating with external partners, managing documentation, and handling structured workflows. I am highly organised, independent, and proactive, and I enjoy taking ownership of operational tasks in a collaborative environment.

I am eager to bring my structured thinking and reliability to Made of Air, supporting your team with invoice management, cash flow tracking, grant administration, and financial reporting.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
