I am writing to express my interest in the Key Account Manager position at GFL Cosmetics. Your company's 30-year track record in the cosmetics industry and global presence across hotels, retail, and e-commerce channels is impressive. I am particularly drawn to the opportunity to develop the Southern Germany market and contribute to your continued growth.

Although my professional background is in software engineering, I have developed strong analytical and tech-savvy capabilities that directly support the data analysis and sales strategy optimization aspects of this role. I am proficient in Excel and various online business applications, and I have experience using data to drive decisions and improve outcomes.

Through my work as a Web Developer, I have collaborated closely with diverse stakeholders, managed client relationships, and ensured clear communication across teams. These experiences have equipped me with the relationship management, negotiation, and training skills needed to maintain strong partnerships with existing clients and distribution partners, as well as to develop new sales contracts.

I am a highly self-motivated and entrepreneurial individual who thrives when working independently toward clear targets. I am comfortable with travel and eager to apply my proactive mindset to achieve and exceed sales turnover and margin goals. I also align with GFL Cosmetics' values of environmental respect and sustainability.

In addition to my technical and analytical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments. I have attached my CV for your review and welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
